Вариант 9

Дрожжа Е.А.

Задание 1

a) Вывести значения полей [StartDate], [EndDate]из таблицы [HumanResources].
[EmployeeDepartmentHistory] и полей [GroupName] и [Name] из таблицы [HumanResources].
[Department] в виде xml, сохраненного в переменную.

Результат выполнения:

	(No column name)
1	<History><Transaction><Start>2003-02-15</Start><...

```xml
<History>
  <Transaction>
    <Start>2003-02-15</Start>
    <Department>
      <Group>Executive General and Administration</Group>
      <Name>Executive</Name>
    </Department>
  </Transaction>
  <Transaction>
    <Start>2002-03-03</Start>
    <Department>
      <Group>Research and Development</Group>
      <Name>Engineering</Name>
    </Department>
  </Transaction>
```

b) Создать временную таблицу, состоящую из 1 колонки и заполнить её xml, содержащимся
в тегах Department.

	sql
1	<Department><Group>Executive General and Administrat...
2	<Department><Group>Research and Development</Gro...
3	<Department><Group>Research and Development</Gro...
4	<Department><Group>Research and Development</Gro...
5	<Department><Group>Research and Development</Gro...
6	<Department><Group>Research and Development</Gro...
7	<Department><Group>Research and Development</Gro...
8	<Department><Group>Research and Development</Gro...

```
<Department>
    <Group>Executive General and Administration</Group>
    <Name>Executive</Name>
</Department>
```
